ARONIA KIDS

Siberian Aronia juice with 8 different kinds of fruit

Simple, clean ingredients:

Aronia Berry (90%), Banana, Grape, Apricot, Passion Fruit, Pineapple, Orange, Lime and Mango

Aronia Kids has ORAC6 18,400 µmolTE per serving (1.69 fl oz), making it a more powerful antioxidant than blueberries, cranberries, elderberries, and raspberries. Directly from nature, not from concentrate, we bottle the goodness of the aronia berry and make it easy for kids to take advantage of its health benefits.

Our berries are grown at sub-zero temperatures on plantations in Siberia that are 500 miles away from the nearest industrial zone, resulting in resilient berries and a very potent juice.

HEALTH BENEFITS

Daily consumption of **Siberian Aronia berry juice** by children will help prevent the consequences of improper nutrition, free radicals, obesity, lack of iron, digestive problems and infections.

Every day, the cells of a child's body are being attacked by millions of free radicals which are the main culprits in causing over 150 diseases. Due to the fast paced life that is increasingly common in our modern world, we are paying less and less attention to the ingredients that we put into our children's bodies. Instead of fresh and healthy food, we often fill children up with pastries, sweets, juices, crackers and other snacks causing them to have compromised immunity and even leading to obesity.

Aronia Kids is formulated especially for children, harnessing the power of the Siberian Aronia berry to strengthen the immune system. It is rich in flavonoids, vitamins A, C and E, and it does not contain any added sugar and preservatives.
